You may find that your flexibility and range of motion is greater in water than on land. Stretching in the water removes the push of gravity on your joints. Let's take advantage of this and give your muscles the stretch they deserve! As we age balance is important to maintain in order to prevent falls. Light cardio will be incorporated intermittently to maintain warmth. This mind body flow will leave you feeling restful yet invigorated. Consider wearing a rash-guard for warmth.

Medicare Made Clear

Medicare can be, and often is, confusing. If you are approaching age 65, or already there your mailbox may already be stuffed full of letters and advertisements from Medicare and everyone else who wants you to buy their plan. So, what do you do? Should you purchase a HMO or a PPO plan? Maybe an HMO/POS? What about a Medicare Supplement/Medigap plan? Maybe you are wondering what the donut hole is and why you should try to stay out of it. Or maybe you want to work past age 65, and wonder how that will affect you and the insurance at your job? Maybe your questions are more basic, like when do I sign up? or Where do I sign up? Don't worry! This is a real-world, interactive class with real-life illustrations. In this two-hour class you will learn about the various types of plans, processes and penalties associated with Medicare for this year. If you are 64 or older, this class will help you make better decisions for your healthcare when it is time for you to choose a Medicare plan for yourself. Please bring pen/pencil and paper to class to take notes.

This offering is open to both the beginner and the experienced practitioner. It is designed as an introduction to Vinyasa (flow) yoga, but it is also an excellent opportunity to slow down and deepen an existing practice. These classes are mildly vigorous and intended to help strengthen, stretch, and shape the body while simultaneously connecting breath to movement in an effort to increase awareness, reduce stress, and restore balance. Students are taught various poses and modifications to help ease into each pose. Before closing the practice, we will take Savasana, a restorative pose which will allow the mind and body to rest and rejuvenate. **Students are required to bring a yoga mat and one yoga block.** Additional block, strap, hand towel, and/or a bolster are optional.

Discover the Power of Intuition

We all have thoughts and personal moments, such as was that my imagination?

This class is for those who want to know what that small voice is and how to trust it in everyday life. Intuition is defined as the ability to understand something without the need for conscious reasoning. Intuition is not mystical nor magical but a process of our mind receiving and interpreting information through our senses. Expanding this awareness allows us to connect our intuition to scenarios and synchronicities of daily living.

This introductory class is dynamic and fast moving...full of exercises and discussion that will walk you into knowing--and trusting--this natural ability, covering topics such as:

- Understanding what intuitive information is.
- The role of our Senses ...Psychometry, and more!
- Knowledge is power...connection is Joy.

ABOUT THE INSTRUCTORS: Susan Fiandach and Connie Wake are owners of The Purple Door in Rochester, NY. They are professional psychic-mediums, teachers and co-authors. Visit <http://www.PurpleDoorSoulSource.com> for more information
